Summary

Full-Stack Developer with around 2 years of experience building responsive and scalable web apps using React, Next.js, and Node.js. I'm currently looking for solid opportunities where I can take ownership, grow, and build real value.

Experience

Freelance Full-Stack Developer   Remote / UAE | Jul 2025 – Present
• Working on multiple freelance projects including a full-stack website for ABS Technical Services company in Dubai
• Collaborating with multiple clients to deliver full-stack web solutions tailored to their business needs
• Managing the entire development process from UI design to backend APIs and deployment
• Experienced in building production-ready applications with modern technologies and best practices
• Currently working on ongoing freelance projects, with additional work already scheduled

UpSkilling Web Developer   Remote | Apr 2024 - Jul 2024
• Built and enhanced user interfaces using Next.js and TypeScript, ensuring responsive and dynamic user experiences.
• Collaborated with cross-functional teams (product, design, and management) in an Agile environment to ensure alignment with business goals
• Mentored junior developers and participated in code reviews to improve code quality and shared best practices across teams
• Actively participating in the Upskilling program, engaging in hands-on projects that mirror industry challenges. This experience provide me into thepractical aspects of web development and equips me with the skills required to excel in real-world projects

Make Your Miracle Web Developer   Egypt | Mar 2023 - Mar 2024
• Write clean, high-quality, high performance, and maintainable codes with React.js
• Working closely with software developers on creating new codes.
• Implement user interfaces based on design specifications, ensuring a seamless and visually appealing user experience.

Cyparta   Egypt | Feb 2022 - Dec 2022
• Collaborated with a team of developers to design and implement various features, including user management, project management, and communication tools, resulting in a seamless collaboration experience for different user types.
• Maintained a clean and reusable code and insured the apply of best practices.• Investigating and using new technologies where relevant

HTML - CSS - JavaScript - TypeScript - ReactJS - NextJS - Redux - BootStrap - Material UI - Sass - Tailwind CSS - NodeJS - MongoDB MySQL - Express JS - Mongoose - Git & GitHub - Agile development

Projects

ABS Technical Services – Full Stack Web Application — GitHub | Live
Built a full-stack platform for a Dubai-based company with a client portal and admin dashboard to manage services and client requests. Implemented secure authentication with JWT & bcrypt and ensured data accuracy with Zod & Joi validation. Integrated Cloudinary & Multer for file handling and Nodemailer for automated notifications. Designed a responsive and modern UI using Next.js, React, Tailwind CSS, and Radix UI, with optimized data handling via React Query. Tech Stack: Next.js, React, Tailwind CSS, Sadcn/ui, React Query, Node.js, Express.js, MongoDB, JWT, bcrypt, Joi, Multer, Cloudinary, Nodemailer

Food Ordering — GitHub | Live
Ensured high data accuracy and security with Zod for data validation and secure authentication mechanisms using nextAuth and implement translation using i18n. Optimized application speed and user interactions through effective caching and state management with Redux Toolkit.
Designed a sleek and responsive interface with Tailwind CSS, enhancing user experience across devices. Tech Stack: NextJS, Prisma, PostgreSQL, TypeScript, TailwindCSS, Shadcn, Cloudinary

Quiz Application — GitHub | Live
User management roles (Instructor / Student). Instructor: Allows instructors to create and manage exams, monitor student performance, and adjust exam settings. Student Portal: Provides students with access to exams using unique codes, allowing them to take exams, view results, and access exam history. Interactive Exam Management: Enables efficient communication between instructors and students for seamless exam administration and participation. Tech Stack: ReactJS, TypeScript, Redux toolkit, TailwindCSS

Education

Cairo University — Bachelor's degree in Commerce   2018 - 2022
